

Value Engineering

To facilitate this ambition of getting the quality right, these checks should take place:

- Review and understand contractual deliverables before considering and accepting VE
- Review and understand dependencies and effects on other elements / packages / lifecycle when considering VE
- Ensure all changes are fully documented and confirmed to all parties
- Ensure that specifications and contracts are revised to incorporate the changes
- Ensure that any innovative systems and techniques are fully understood
- Ensure all technical submissions provide declaration of compliance and fully identify and any areas of noncompliance

Our Quality vision:

We will get it right first time on all our projects by delivering exceptional customer service
