

To facilitate this ambition of getting facades right, these rules should be adopted:

RULE

1

Ensure the detailed design, with supplementary technical information is reviewed and approved by appropriate person(s)

RULE

2

Select a Supply Chain with the Capacity, Competency and Capability

RULE

3

Ensure that the Supervision and Operative Competency is assessed to ensure they have the relevant skills, behaviour, experience and knowledge to undertake the activities

RULE

4

Seek Third Party help, support and advice throughout the full quality life cycle

RULE

5

Ensure that the quality plan is in place for the façade works supplemented with detailed Logistic Plans

LOGISTICS PLAN

RULE

6

Develop project specific Inspection and Test Plans to a high level of detail

ITP CONTENTS
